

Go with the curve!

Sure, straight lines are the shortest distance between two points...
....but not necessarily the most visually appealing!

Liven up your designs with curved, lightweight architectural panels from Fulcrum Composites – the curved panel specialists. Ideal for partition walls, signage, column covers, retail and museum display, ceilings, hanging elements and 3-D relief elements.

A wide selection of surface materials and curved configurations make the possibilities endless – from purely decorative, to semi-structural.

Give us a call today with your ideas, or to request samples or literature.

As easy as 1, 2, 3

Step 1 - Choose your shape

Select from one of our existing designs, or tell us your shape and we will create it for you.

Step 2 - Choose your surface

Wood veneer, high-pressure laminate, wall fabrics, printed graphics, aluminum, foils, faux stone, composites, paint.

Step 3 - Choose your edge treatment and/or connection method

Inserts and edge closures available for connections and attachments.

- Individual panels up to 8'x8'

- Radii from 4" up

- Flexible process makes single panel and low-volume orders affordable

- As light as 7 ounces per square foot

- Easily cut and machined with standard carpentry tools for onsite details and modifications
